

Dr Samsul Huda, International Editor, Hobartville, Australia

Dr Samsul Huda - Associate Professor (agroclimatologist/agronomist and modeller), based at the Western Sydney, Hobartville, NSW, Australia have developed and applied a framework to address climate variability towards maximising opportunities and minimizing crop production risk. Previously worked at International Crops Research Institute for the Semi-Arid Tropics (ICRISAT), Hyderabad (1978 –1990) in analysing climatic data and applying simulation models to improve understanding of how crop management decisions can take better account of the climatic environment. Doctorate in agronomy and crop science from University of Missouri-Columbia, USA.
