

## **Dr Elizabeth Pattey, International Editor, Ottawa, Canada**

**Dr Elizabeth Pattey** - Principal Research Scientist at Agriculture and Agri-Food Canada (AAFC) and the leader of the micrometeorology laboratory at the Ottawa Research and Development Centre. Her research supports nationwide improvement in the environmental performance of agriculture, in support of the United Nations' Framework Convention on Climate Change and Canada's Clean Air Act. She is the co-author for over 80 peer-reviewed scientific publications, and her areas of expertise include micrometeorology, ecophysiology, trace gas flux measurement techniques, process-based models, and remote-sensing applications. Doctorate in Plant Science-Micrometeorology and recipient of American Meteorological Society's Award for Outstanding Achievement in Biometeorology.
